PDF retrieval edition for a no-LLM website chatbot

Source	https://reforbs.com/
Public website reviewed	26 October 2026
Purpose	Help the website chatbot answer common customer questions using verified public information.
Coverage	Brand overview, named properties, general amenities, contact details, FAQ responses, and information gaps.

Important: This document captures information visible on the public Reforbs homepage. It does not claim that unpublished prices, availability, house rules, or property-specific inclusions are known. Those questions should be referred to the Reforbs team.

1. Instructions for the chatbot

Use this PDF as the single source of truth for customer-facing answers. Match the customer's question to the most relevant fact or FAQ below. Keep answers short, friendly, and grounded in the stated information.

Rules that prevent incorrect answers

• **Do not invent facts.** Never make up rent, deposits, discounts, availability, booking steps, room dimensions, policies, or amenities for a specific property.

• **Separate general claims from property-specific facts.** The website lists amenities generally, but does not map every amenity to every property. Tell customers to confirm the details for the property they are interested in.

• **Be transparent when information is missing.** Say that the website does not specify the requested detail and offer the official contact number: 7420040241.

• **Do not promise current availability.** Availability can change and is not shown on the homepage. Ask the customer to contact Reforbs directly.

• **Do not claim formal rules that are not published.** Curfew, visitors, food, pets, gender restrictions, ID requirements, cancellation, refunds, lease duration, and payment terms are not specified in the reviewed page.

• **Keep contact details exact.** The website lists Viman Nagar, Pune, Maharashtra; Owner: Arpit Agarwal; Phone: 7420040241.

Recommended fallback answer

“I couldn't verify that detail from the information available on the Reforbs website. For the latest details, please contact the Reforbs team at 7420040241. The website lists Reforbs in Viman Nagar, Pune, Maharashtra.”

Recommended tone

Friendly, clear, helpful, and concise. Do not say that a booking, room hold, tour, or callback has been created. The chatbot cannot perform those actions.

2. About Reforbs Living

Reforbs describes itself as a provider of premium co-living spaces in Pune for modern working professionals and students. Its positioning is about more than accommodation: a place to live, work or study, play, meet people, and feel at home.

Brand themes on the website

• **Privacy:** The website says all rooms are for single occupants.

• **Comfort and support:** The website mentions day-to-day support and regular maintenance.

• **Personalization:** It describes a home-like setup and mentions a private kitchen, dining space, balcony, and other private spaces. Confirm the exact setup at the chosen property.

• **Decor:** The website says an interior design team works to improve and personalize spaces.

• **Community:** Reforbs emphasizes social bonding, shared experiences, networking, involvement, and community.

• **Freedom:** The website presents freedom and personalizing one's room as core values.

Location and contact

Website	https://reforbs.com/
Location shown	Viman Nagar, Pune, Maharashtra, India
Owner shown	Arpit Agarwal (website styling uses “Arpit agarwal”)
Phone shown	7420040241

The reviewed homepage does not display a customer support email address or direct social-media profile URLs in its readable text.

3. Property directory

The homepage displays five named properties across two categories. Use the locations exactly as shown below; do not infer a street address or building details.

Source and scope

Primary source reviewed: https://reforbs.com/ (public homepage, including the visible properties, amenities, brand values, and contact sections). Site content was reviewed on 26 October 2026. The homepage appears to present the property categories within the same page; no additional public detail pages or official property-specific pricing sheets were available through the reviewed website content.

External directory listings were not used to fill missing official details. This avoids mixing stale or third-party information into the chatbot's official answers.
